30 DAY BODYWEIGHT HOME CHALLENGE

No equipment • 20-35 minutes • printable calendar & daily checklists

Consult a qualified professional before starting. Stop if you feel pain. For personal use only.

Welcome to the challenge

Thirty days, no equipment, a few square meters of floor. Three workout types rotate through the month with built-in rest and active recovery days, and the volume steps up every week. Tick off each day on the calendar and track your reps on the daily checklist pages.

Important - please read

Safety & disclaimer

This challenge is general fitness information, not medical advice. **Consult a qualified professional before starting**, especially if you have an injury, a heart or joint condition, or have not exercised recently. **Stop immediately if you feel pain**, dizziness, chest discomfort or shortness of breath beyond normal effort. Individual results vary; no specific outcome (weight, strength or appearance) is promised.

How it works

- **Workout A - Push & Core**, **Workout B - Legs**, **Workout C - Full-Body Circuit**. Do the exercises in order as a circuit; rest 60-90 s between rounds.
- **Rounds increase weekly:** Week 1 (Days 1-7) = 2 rounds, Week 2 (Days 8-14) = 3, Week 3 (Days 15-21) = 3 (harder version), Week 4 (Days 22-30) = 4.
- **Rest days** are rest. **Active recovery** = 20-30 min easy walk plus the 10-minute mobility routine (about 30-40 min total).
- **Scale it:** every exercise has an easier and harder option. Choose the version where you finish each set with 1-3 good reps left.
- **Day 1** is the check-in test only - no workout. **Day 30:** repeat the test and compare.

Warm-up, Cool-down & Mobility

Warm-up (5 minutes, before every workout)

Move	Time / reps
March or jog in place	60 s
Arm circles (forward / back)	10 each
Hip circles	10 each way
Bodyweight good-morning	10
Slow squat to stand	8
Inchworm walk-out	5

Cool-down (5 minutes, after every workout)

Move	Time	Cue
Easy walk around the room	1-2 min	Let your breathing slow down
Standing quad stretch	30 s each leg	Hold a wall, knees together
Standing hamstring stretch	30 s each leg	Heel forward, hinge at the hips
Doorway chest stretch	30 s	Forearm on the frame, gentle lean
Child's pose	45 s	Knees wide, arms long, breathe slowly

Stretch gently - never into pain, no bouncing.

Active recovery & mobility (30-40 min total)

Easy walk 20-30 min, then this 10-minute mobility routine: cat-cow x10, hip flexor stretch 30 s each side, hamstring stretch 30 s each, chest doorway stretch 30 s, child's pose 45 s. Gentle range only - never stretch into pain.

Side plank	20 s each	Knees bent	Add hip dips	Body in a line, hips up
Dead bug	8 each	Feet on floor	Arms + legs	Low back stays near floor

Check-in Test (Day 1 & Day 30)

Rest 2-3 minutes between tests. Stop each test when form breaks down.

Test	Day 1	Day 30	Change
Max push-ups (good form)			
Max squats in 60 s			
Plank hold (seconds)			
Wall sit (seconds)			
Burpees in 60 s			
Resting heart rate (optional)			

Progression after Day 30

- Repeat the 30 days using the harder (+) versions throughout.
- Add a 5th round, or slow the lowering phase to 3 seconds.
- Keep at least 1-2 rest days per week.
